JURNAL

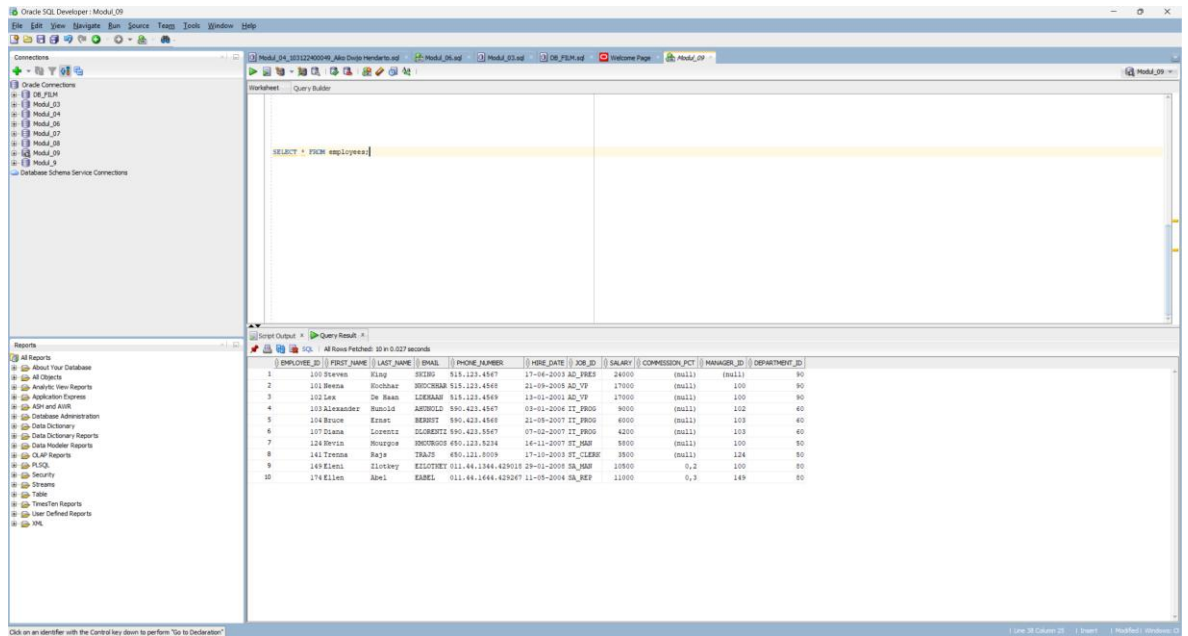

Click on an identifier with the Control key down to perform "Go to Declaration"

1. Create table employees

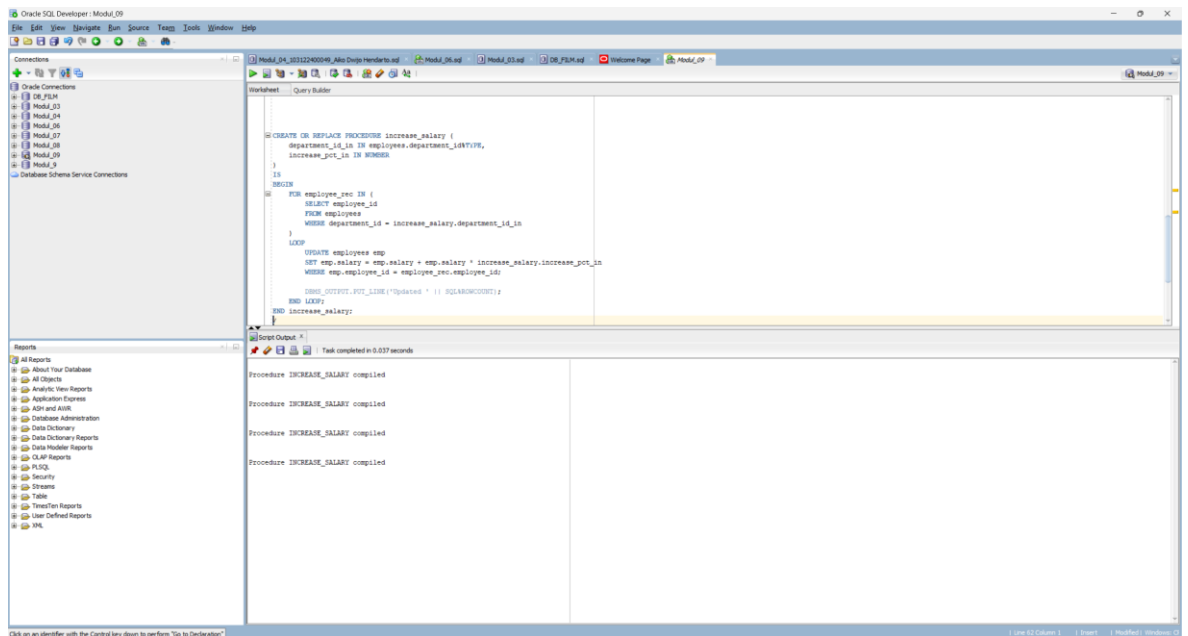

Click on an identifier with the Control key down to perform "Go to Declaration"

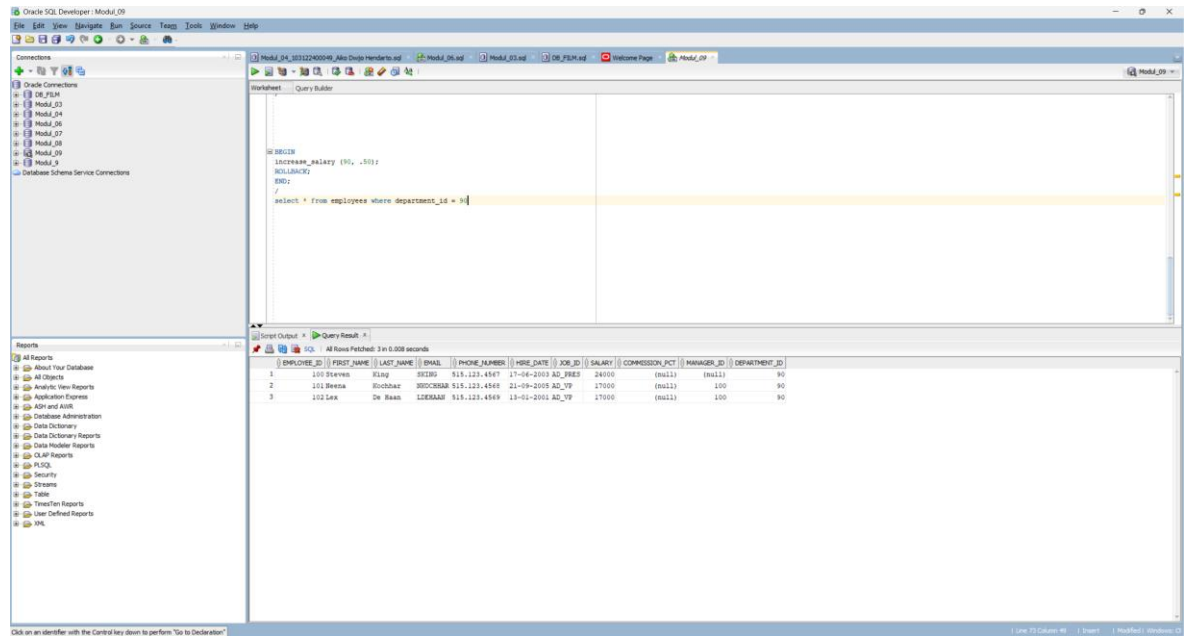

2. Select * from employees

3.

4. BEGIN increase_salary(90, .50); ROLLBACK; END; / select * from employees where department_id = 90a

5. Apa yang terjadi jika statement ROLLBACK dihapus pada sql code no 4.

Jika statement ROLLBACK dihapus pada kode nomor 4, maka perubahan salary employee pada department 90 akan tetap tersimpan di database. Akibatnya salary employee akan meningkat sebesar 50% dan data tidak kembali ke kondisi awal karena transaksi update tidak dibatalkan.
